

SYNOPSIS of Section II

To keep the path clear here is an outline of the salient points that are the main steps to be followed:

THE RITUALS

Articulating AWEN

This is the first stage of the rituals and is common to both the Awakening AWEN ritual that is done in full waking consciousness and the Actualizing AWEN ritual that is done in your Study. This step is clarifying your desire and writing it out. We are harnessing the psychological factor that something written has always had an “official rightness” to it.

There is a supplemental Section II when you want to add an IAM for a twenty eight day Sojourn.

Awakening AWEN

The most basic ritual, to be performed as needed. It can be on an ad-hoc basis for something that is not too great a boon (or that you know won't be resisted by Iddy), over a short period of time for the cumulative effects, or be your daily ritual for a Sojourn. It is the simpler ritual to achieve for most people starting out or for people having problems with proper visualization. The major steps are:

- ASSUAGING: preliminary step to setting the mood and tone for the work that follows.
- ANNUNCIATING: giving substance to your desire by tying it to basic aural expression. Following the old dictum that you must ask to receive.
- ACTIVATING: building up emotion to be a carrier for your desire and then melding in visual representations of your desire to that heightened emotional state
- AUGMENTING: opening yourself up to be a channel for strong outside forces to further enhance your Intend as an attractor

Actualizing AWEN

This is when you are bringing AWEN to reality in your Study. As before it can be used on an ad-hoc basis or daily during your Sojourn. Actualizing AWEN can also be used by itself anywhere as an independent ritual when a Sacred Space is not available.

Affixing AWEN

This is the denouement to the rituals when you bring closure through prayers and sacrifices.

POST RITUAL

Anticipating AWEN

Continuing the work started by the ritual so far to now bring your desire to nascence. Cultivating the state where desired results are incubated and nurtured.

Advancing AWEN

Post ritual session facilitation to bringing about your Intend. Follow up work to boost the effectiveness of ANTICIPATING

AIDS TO MANIFESTING

Architecting AWEN

A back door approach to manifesting your Intend when the direct approach is meeting resistance.

Applying AWEN

The Triumvirate system of achieving success when multiple Intends are desired simultaneously.

Amassing AWEN

The ultimate aid to manifesting, communal effort. The modifications need to make a success of Actioning AWEN when working with others in a $\text{Success} \text{ Synergy} \text{ Circle}$. To keep the group united on the same track a modified Awakening AWEN ritual has to be used. The adventuresome might try incorporating Actualizing AWEN but it would probably have to be an advanced and experienced group to pull it off.
